MANAGEMENT DISCUSSION AND ANALYSIS

REAL ESTATE – AS DEVELOPERS:

India's real estate sector is projected to reach \$180 billion by 2020 from \$126 billion in 2015, according to a joint report by CREDAI and JLL.

Investment inflows in the housing sector since 2014 have been Rs 590 billion, about 47 per cent of the total invested money in real estate. The implementation of the GST proven to be a significant “upside risk” to economic activity in 2017-18.

Regulatory reforms, steady demand generated through rapid urbanization, rising household income and the emergence of affordable and nuclear housing are some of the key drivers of growth for the sector

INDUSTRY OVERVIEW: OUTLOOK, OPPORTUNITIES AND THREAT

Real Estate (Regulation and Development) Act, 2016 [RERA], a significant milestone in the Indian real estate sector, will steer the real estate sector towards better transparency, accountability and favourable environment for developers, buyers, and investors to operate in the coming years. RERA, the game changer for all stakeholders in the real estate market, will boost consumer confidence, and also facilitate the flow of investments into the real estate sector.

Moreover due to implementation of GST, it has stressed out most of the taxpayers and dealers due to its compliance requirement. But, as we know that real estate industry contributes about 7.8% to India's GDP and it is the second largest employment generator after IT industry. The enactment of this tax law will alone solve the challenges faced by the real estate sector and help the sector to come out of its long slumber.

The Union Budget for FY 2017-18 maintained its focus on the agenda 'Housing for All' by 2022 with 39% higher allocations vis-à-vis FY 2016-17 under the Pradhan Mantri Awas Yojana (PMAY). Hence, put a special emphasis on the affordable sector to promote its growth.

MNIL is fully focused in providing Affordable housing for lower, medium and premium houses, with a measureable outlook & maximum penetration in the segment. We also have plans to primarily focus on the redevelopment sector, under the slum rehabilitation schemes especially in Kolkata.

The Company is involved in investment in, and to do the business of sale and purchase of land and buildings, farms and out houses, other real estates, and to act as Real Estate Agents, Landlords, and Contractors and to buy, sell, mortgage, grant license, let easement of any properties of the Company.

Company has developed some of the modern and finest residential and commercial complexes in Rajasthan and Delhi Noida, National Capital Region (NCR) and new urban settlement like Meerut, Moradabad, Haridwar and Rudrapur. Since our inception we have been responsible for the development of many of Delhi's other well-known urban housing colonies. Company offers a combination of highly personal and professional attention to projects, backed by the world's leading real estate services and money management firm and also enduring to do more and more expansions by entering into new projects.

Your Board of Directors are in the process of commencing project “under the HOUSING FOR ALL” which are to be located in West Bengal and Kolkata by the starting of 2018. The reason is that we have many approvals and subsidies that have to be applied and received before we commence the said schemes.

The transition was carried out from the accounting principles generally accepted in India (Indian GAAP) which is considered as Previous GAAP as defined in Ind AS 101. An explanation of how the transition to Ind AS has impacted the Company's equity and profits is provided in Note 3 below. The preparation of these financial statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. Accounting policies have been applied consistently to all periods presented in the financial statements. They have also been applied in preparing the Ind AS opening Balance Sheet as at 1 April, 2016 for the purpose of transition to Ind AS and as required by Ind AS 101. All the Ind AS impact as on the date of transition i.e. 1 April, 2016 has been adjusted with Retained Earnings.

c) Use of Estimates and judgments

The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions

and factors that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates.

d) Revenue Recognition

The following specific recognition criteria must also be met before revenue is recognized.

Income from services:

Service revenue is recognised on completion of provision of services which in general coincides with invoicing to customers. Revenue, net of discount, is recognised on transfer of all significant risks and rewards to the customer and when no significant uncertainty exists regarding realisation of consideration.

Revenue from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred. Revenues from time bound fixed price contracts, are recognised over the life of the contract using the percentage of completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Interest Income:

Interest income is recognised on an accrual basis using effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

e) Depreciation and Amortization

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the Written down Value method.

Amortization is recognized on a Written down Value basis over their estimated useful lives.

The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Depreciation on tangible assets is provided as per the provisions of Part B of Schedule II of the Companies Act, 2013 based on useful life and residual value notified for accounting purposes by Electricity Regulatory Authorities.

Current tax is the amount of tax payable based on the taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The residual values, useful lives and methods of depreciation of fixed assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

k) **Investments**

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.
